A NOTE FROM BRANDON

Your home took care of your family. Now let us take care of you.

Dear friend,

Thank you for taking a look. I grew up right here in the Valley, in a family that works in real estate, and I've spent nine years helping families with their homes.

These pages lay out your options in plain words, with real numbers, so you and your family can take your time. Nothing here needs a decision today.

With care,

Brandon Melgar

MY PROMISE *in good hands, like family*

1. Your family is welcome at every meeting.
2. No decisions on the first visit.
3. Everything in writing, in plain words.
4. I work alongside your CPA and attorney.
5. Nobody pays me to send you anywhere.
6. If staying put is best, I'll tell you.

YOUR OPTIONS

There's more than one right answer.

Every family is different. These are the roads I help families with most often.

1 DOWNSIZE TO EASY

FOR YOU IF the stairs, the yard or the upkeep have become too much.

I HELP sell your home, find something simpler, keep your low property tax, and line up trusted movers and helpers.

2 STAY CLOSE TO FAMILY

FOR YOU IF you want family nearby and room for help when you need it.

I HELP find a home with a guest house (an ADU) or space for everyone, with single level living and easy access.

3 WHEN MORE HELP IS NEEDED

FOR YOU IF day to day care has become too much to manage at home.

I HELP with a plan for the house, so its value supports the care you deserve, and introductions to people I trust.

> **Happy where you are?** Wonderful. Knowing your options now means your family never has to guess later.

PROP 19 • IF YOU MOVE

Keep your low property tax when you move.

If you've owned your home a long time, your property tax is based on what it was worth back then. If you're **55 or older**, you can usually take that low tax with you.

- ☑ Buy your next home **anywhere in California**.
- ☑ Buy it **within 2 years** of selling, before or after.
- ☑ Costs more? **Only the difference** is added to your tax.
- ☑ You can do this up to **3 times**.
- ☑ A form must be filed in time. **I help you with it.**

AN EXAMPLE	SMALLER HOME	HOME WITH ADU
You sell for	$1,100,000	$1,100,000
You buy for	$750,000	$1,300,000
Yearly tax with Prop 19	$2,520	$4,920
Yearly tax without it	$9,000	$15,600
You keep every year	**$6,480**	**$10,680**

Example: a home bought years ago with a $210,000 tax base, at about 1.2% a year. Your numbers will differ. Also applies to severely disabled homeowners and disaster victims.

Passing your home to your children.

The rules changed in 2021. Here is how it works now.

- ★ **Your child must live there.** They move in as their main home within 1 year.
- ★ **Your low tax is protected** up to your tax value plus **$1,044,586** (through Feb 15, 2027). Above that, the difference is added.
- ★ **Rentals and second homes** no longer qualify.
- ★ **If your child rents it out later,** the tax resets.
- ★ **A living trust can qualify.** Forms have deadlines, so plan ahead.

AN EXAMPLE	YOUR SON MOVES IN
Home's value	$1,300,000
His yearly tax with Prop 19	$3,065
Without it	$15,600
Your family keeps every year	**$12,535**

BEFORE YOU CHANGE ANYTHING

If a parent has moved into care, or you're thinking about changing the deed, talk with your estate attorney and CPA first. I'm glad to help you get those answers.

Example: $210,000 tax base, about 1.2% a year. Figures per the California State Board of Equalization. Your numbers will differ.
